MEGA MAN

THE STORY SO FAR...

Mega Man was originally built as the helper robot "Brock" by Dr. Thomas Light. After Dr. Light's friend and fellow scientist, Dr. Willy, tried to take over the world using the all-powerful Robot Masters, Mega Man pledged to become a defender of both man and robotkind.

THE ADVENTURES OF THE SUPER FIGHTING ROBOT!

Mega Man's promise sent him on the hunt for eight rogue Robot Masters and the precious Energy Elements that they stole. His search brought him to a long-lost weapons bunker built by Dr. Willy. Inside, he found the Willy Walker - a mobile weapons platform of terrible power and seemingly unstoppable force. With some help from his fellow Robot Masters,

Mega Man shut down the Willy Walker.

A BATTLE BETWEEN GOOD AND EVIL

Dr. Willy's latest bid for world domination resulted in the destruction of Light Labs, and a loss of innocence for our blue hero. Despite it all, Mega Man battles on to protect the world, and his family, from threats both without and within...

FORWARD TO THE FUTURE

Fast forward one hundred years into the future, where Dr. Light's final creation, X, has been awakened by Dr. Cain. Using X as a basis, Dr. Cain produced the first line of living robots – the Reploids! Now Reploids coexist with humanity – living, working and dying. A special force of Reploids, called the “Maverick Hunters” were also formed and work to ensure that any rogue Reploids are kept in check.

AN EVIL FROM THE PAST

Sometime after the Reploids' production, Dr. Cain and X visited an archaeological dig site – the remains of the very same weapons lab Mega Man was sent to investigate in the past! In the rubble, they find the remains of the dreaded Wily Walker! The Maverick Hunters team up to shut down the monstrous machine permanently, before the Walker can unleash its dangerous chemical weapons.

RISE OF THE MAVERICKS

With the protection of the Maverick Hunters, life for human and robot-kind was peaceful. But then everything changed when Sigma, the leader of the Maverick Hunters, went Maverick himself.

With most of the Hunters also turning Maverick, it's up to X and his best friend, Zero, to contain the chaos that Sigma has unleashed on the world...
